

## School Feeding Programme

Changing lives...including yours

In November 2020 the School Feeding Programme was launched. The programme provides schools meals for approx. 400 children in Omega, St Peters' and Wisdom Nursery Schools. These schools serve very poor communities so many of the children arrive at school hungry because their families do not have enough income to provide even the barest minimum of food. As a result many children are withdrawn from school, and to earn money to provide food for the family, have to engage in street trading thus exposing them to risks including sexual abuse, child trafficking, teenage pregnancies, and child labour.

The programme provides over 400 children with a daily nutritious meal, ensuring their attendance at school and safeguarding them from the risks of being on the streets.

A donation of:

- £1 provides a school meal each day for a month for one child.
- £5 provides a school meal each day for a month for 5 children.
- £10 provides a school meal each day for a month for 10 children.
- £12 provides a school meal each day for a year for one child.

More information about the School Feeding Programme and our other projects can be found on the Project Gambia website [www.projectgambia.org.uk](http://www.projectgambia.org.uk) or by contacting Bev Hodt: [bevhodt@projectgambia.org.uk](mailto:bevhodt@projectgambia.org.uk).

Donations can be made through the Charities Aid Foundation link on the website.

Donations of clothes, shoes, household items, toiletries, make up, sanitary products etc are also welcome. Details of items we collect can be found on our website.

Thank you for your support.
